Burger Buzz

Atlantans inside the perimeter have a new reason to rejoice: the delicious, fresh and affordable US Cafe has recently opened up a brand new in-town location at Lindbergh Center. US Cafe offers an amazing selection of burgers (including a healthier turkey

option), fries, wings, shakes and more. All of their hand-formed beef burgers are made with 100% pure Creekstone Farms Black Angus ground chuck, which contains essential nutrients like vitamin E, omega 3 fatty acids and beta-carotene, so you can feel good about indulging. And the US Cafe Black Angus burger comes in at \$3.49—considerably less pricey than other burger joints in town. Enjoy tasty food in a great atmosphere filled with flatscreen TVs, ample seating and a great patio.

Details: 2591 Piedmont Road, Suite 102, Atlanta, GA 30324,
